October is “Be Car Care Aware” Month

Spring Street Service Center has developed a series of workshops to promote safety and consumer education. The workshops are scheduled for Thursday Oct 22 & Wednesday, Oct 28. 6:30-8PM

Each workshop, lead by Clark Mason and the Technicians, will consist of an hour and a half classroom instruction and hands-on learning with your own vehicle. The goal of this event is to help you, as a motorist, learn as much as possible about your own vehicle.

Although the workshops are free, each participant is asked to make a donation to Pauline’s Stock Pot Kitchen of the Wesley UMC, Warehouse Point.

This might be just the date night or family event you have been looking for. Space is limited; please call to reserve space for yourself or your group at 627-7495.
