Spring Street Service Center was nominated as recipient of the TechNet/CarQuest Excellence Award. The award states “that through the course of everyday service excellence, Spring Street Service Center exemplifies the professionalism necessary to build public understanding and respect for the people working in the automotive service industry today”.

"I am very honored to have our business recognized for the TechNet Excellence Award," said Clark Mason, Owner of Spring Street Service Center, a TECH-NET Professional Auto Service center.

The award is based on such criteria as industry involvement, number of technicians certifications earned, community involvement, training, shop appearance and customer service.

Spring Street Service Center, located in Windsor Locks, is state of the art facility with 7 bays and includes the most up-to-date diagnostic and alignment equipment.
